

Digital Still Camera

PRODUCT HIGHLIGHTS

- 14.2 Megapixels + 5x optical zoom lens
- 2.7" LCD screen + 1.5" LCD front screen
- Dual view

Everyone will look sharper with the PL120 – including yourself.

The DualView PL120 takes shots with a revolutionary difference: a front LCD screen lets you take perfectly framed self-portraits. Looking at the 2.7" LCD back screen, the 5x optical zoom brings distant objects close, while the 26mm lens takes in the wider world – all rendered in 14.2 Megapixel clarity. And, since life never stands still, the PL120 also lets you capture HD-quality video in 720p.

10MW (4320x2432), 2MW (1920x1080),
12MP (4320x2880)

Voice recording: Mono

FEATURES

Digital Image Stabilization: Gives you sharp images no matter the condition. Whether it's low light, zooming or just shaky hands, your photos come out sharp and clear.

HD Movie: Record movies in the palm of your hand. With HD Movie you can record HD video in 1280x720p resolution at 30 frames per second.

Smart Auto 2.0: Using your selected shoot mode, Smart Auto takes perfect shots automatically, based on lighting and other conditions.

Smart Filter 2.0: Change the mood of stills and movies with special-effects filters, such as Half Tone Dot and Old Movie.

Face/Smile/Blink Detection: Your camera does the work for you by detecting and adjusting the lighting on up to nine different faces at one time, automatically shooting the subject when they laugh or smile and prohibiting the shot from happening if someone has their eyes closed.

Beauty Shot/Self Portrait: Position yourself in the frame, with dark circles and blemishes automatically removed.

Multi Slide Show function: Lets you arrange pictures into a slide show and add music.

Portrait Highlight: Samsung's smart Portrait Highlight technology makes everyone photograph looking their absolute best – automatically, every time.

Magic Frame Shot: Now you can create artistic, framed photo postcards and posters right in the camera. First select one of the Magic Frame Shot templates, then take the shot. Both images will automatically be combined in a perfectly framed shot, ready to share with friends and family.

Intelli-Studio: Built-in advanced editing software gives you the freedom to play, edit and share files on any PC. Intelli-Studio even starts up automatically – simply plug into any PC via the USB input.
