

Digital Still Camera

PRODUCT HIGHLIGHTS

- 14.2 Megapixels
- 10x Long zoom
- 3" LCD screen

A powerful zoom in a slim case delivers winning style and performance.

The PL210's 10x Long zoom and 27mm lens let you capture previously hard-to-get images. Now you can record all the action on the far side of the field or get a wide shot of the entire team's victory celebration. The 0.8"-slim case is easy to hold; the large 3" LCD screen lets you see everything and change settings with ease for detailed 14.2 Megapixel stills or HD-quality video captured in 720p.

Voice recording: Mono

FEATURES

Dual Image Stabilization: Get brighter and more natural pictures, while also reducing the effects of image blur in lower light conditions.

HD Movie recording: Record movies in the palm of your hand. With HD Movie you can record HD video in 1280x720p resolution at 30 frames per second.

Smart Auto 2.0: Using your selected shoot mode, Smart Auto takes perfect shots automatically, based on lighting and other conditions.

Smart Filter 2.0: Change the mood of stills and movies with special-effects filters, such as Half Tone Dot and Old Movie.

Face Detection: Your camera does the work for you by detecting and adjusting the lighting on up to nine different faces at one time.

Beauty Shot/Self Portrait: Position yourself in the frame, with dark circles and blemishes automatically removed.

Multi Slide Show function: Lets you arrange pictures into a slide show and add music.

Portrait Highlight: Samsung's smart Portrait Highlight technology makes everyone photograph looking their absolute best – automatically, every time.

Magic Frame Shot: Now you can create artistic, framed photo postcards and posters right in the camera. First select one of the Magic Frame Shot templates, then take the shot. Both images will automatically be combined in a perfectly framed shot, ready to share with friends and family.

Intelli-Studio: Built-in advanced editing software gives you the freedom to play, edit and share files on any PC. Intelli-Studio even starts up automatically – simply plug into any PC via the USB input.
